Gymnastics program – coaches		
AASC programs		

#### **3. Do you prefer to have specialist HPE teachers in your school?**

Yes	12	(92.3%)
No	1	(7.7%)

#### *Comments explaining why:*

We are a small rural school (35 children) and therefore cannot afford specialist teachers on top of classroom teachers.

They have the expertise to lead HPE and Sport. The correct skills are vital for children to learn.

They give a fuller, richer & rigorous HPE program.

Would be catering for student needs and development of physical skills. Physical skill development correlates with academic achievement from handwriting/PMP programs and coordination etc.

Specialised, ease of set up, continuity and coverage of VELS/AUSVELS

Specialised program, time release

They then become part of a whole team approach – build relationships & partake in other PD/ functions

Important part of curriculum. We are a ‘Go for your life’ school. Fitness & wellbeing of children is important

To ensure continuity and quality of the PE program

HPE is considered an important part of our program and specialist teachers offer a quality program

They can run better PE programs due to their additional training in PE

For the benefit of the students

Quality program

**11. Are there any other details you would like to add on the issue of quality HPE experiences for children in schools?**

Small school – need to have staff that are multiskilled. One staff member has whole school responsibility for HPE coordination.

From a small school perspective we love the opportunity to be involved in coaching opportunities, and experiences with elite or experienced sportsmen/women.

All schools should have PE specialists to decrease the obesity level in children. More PE teachers allows for more time to be given, allocated for physical activity.

AUSTSWIM, First Aid

Have seen great variation in teaching levels

HPE is important as it helps our children to be healthy and live a full life. It also helps them focus on other parts of their education. It helps them with values eg. team-work, collaboration
